SOFT MESH MATERIAL SAFVEST®

The models SVSOF and SVSOF-LY are made of fluorescent polyester or nylon material. The reflective material is made from 3M Scotchlite™ Reflective Material. Both vests are very popular. They are extremely comfortable while providing excellent visibility. The soft mesh not only provides T-shirt-like comfort but is also easy to fold up for storage while not in use. Both vests are economically priced and are kept in stock for immediate delivery.

WATERPROOF PATROL JACKET

Our jackets are designed by sculpting each seam around the body's curves to properly fit and move fast. Each jacket shell achieves a balance between waterproofness and breathability with a fit that accommodates body armor. To further keep moisture out, we factory tape each seam and face the cuffs and zipper openings with shell fabric. Our jackets are performance packed with numerous pockets and technical linings. All have zip-vents and zip-on and off features that allow you to adapt them to those ever changing patrol conditions; day & night, wind, rain or shine.
